Third-year Information Systems student at University of Santo Tomas seeking an IT/IS internship where I can apply coursework in database design, systems analysis, and web development. Hands-on experience building academic systems projects from requirements gathering through deployment.

## PROFESSIONAL EXPERIENCE

---

### Head Editor, Arts and Photography Department | *Josenian Tribune* January 2023 – May 2024

- Led a 15-member photography and arts team for the school-wide student newspaper
- Edited and curated photo layouts for publication across multiple newspaper issues
- Coordinated team members' event coverage and photography assignments
- Represented the department at DSPC (Division Schools Press Conference) and NSPC (National Schools Press Conference) competitions

### Team Head, Documentations Committee | *ISS UST* August 2025 – May 2026

- Reported directly to the department head on committee activities and updates
- Led event documentation and coverage for organization activities

## EDUCATION

---

### Bachelor of Science in Information Systems *Expected June 2028*

University of Santo Tomas

- General Weighted Average: 1.424

## TECHNICAL PROJECTS

---

### Project UgnAliyan (*A Competency-Based Internship Matching and Skills Gap Analytics System*) 2025 – 2026

- Co-developed a project proposal for an AI-powered internship matching and skills-gap analytics platform for the UST Department of Information Systems (IS2636 Project Management)
- Served as System Architect, ML Engineer, and Backend Developer within a 5-member team, contributing to system architecture design, tech stack selection, and backend integration
- Helped design the NLP-based matching engine architecture, database setup, and API development for a role-based web platform (student, company, and university dashboards)
- Contributed to project planning deliverables including the Work Breakdown Structure, RACI matrix, cost estimation, and risk management plan

### Smart Queue & Appointment System (*A BDO Unibank IS Acquisition Proposal*) 2026

- Served as Project Lead for a 5-member team, coordinating an IS acquisition proposal for an AI-powered smart queue and appointment system for BDO Unibank (IS2637 – IS Strategy Management and Acquisition)
- Directed the team through a Build vs. Buy vs. Lease sourcing analysis, vendor evaluation, and selection process, recommending a SaaS (Lease) model projected to achieve a 39.7% three-year ROI
- Oversaw the development of the business case, functional requirements, cost-benefit analysis, and UI/UX mock-ups for a customer mobile app and branch management dashboard
- Guided the integration of a Privacy and Ethics Audit ensuring proposed compliance with the Data Privacy Act of 2012 (RA 10173) and ethical AI governance standards

## CERTIFICATIONS

---

- Certificate of Participation — KiroQuest, AWS Cloud Club Philippines (2026)
- Certificate of Recognition — Tempest: Ascend to the Cloud, AWS Student Builder Group Tempest (2026)
- JavaScript Certificate — SoloLearn (2026)

## SKILLS

---

- **Programming Languages:** Java, C#
- **Web Development:** JavaScript
- **Database:** SQL
