- Captured event photography for the organization across three consecutive academic years
- Held an online photography workshop for new members of the organization

UST Technovation Society — Multimedia Production Staff

2025–2026

- Photographed portraits of the executive board members for the organization's recruitment phase
- Edited photos for publication using Adobe Lightroom

PROJECTS

Pneumonia Binary Classification on the NIH ChestX-ray14 Dataset via StyleGAN2-ADA, DenseNet-121, and ConvNeXt V2

- Ongoing undergraduate thesis tackling class imbalance in pneumonia detection datasets.
- Uses StyleGAN2-ADA for synthetic image generation and a ConvNeXt V2 classifier with CBAM attention, benchmarked against a DenseNet-121 baseline.

Freelance Photography & Visual Services

- Personal portfolio site showcasing freelance photography work featuring a project gallery and booking/contact info for inquiries.
- Website link: <https://zyraw-visuals.vercel.app/>

TOMCAT–UST Operations Work Tracker

- Private internal tool tracking TOMCAT–UST members' roles across past productions built with React, TypeScript, Node.js, Supabase, Google Authenticator login and deployed with Vercel

COMPASS: Navigate Your Work

- Software Engineering course project for The North Studios, a photography/video production company.
- Worked as the project manager of a team of developers, QAs, systems analysts, and business analysts.
- The system lets the owner dispatch employees to events by role, with automated email notifications.

Travel Buddy

- HCI course project proposing a commuter navigation app.
- Proposal-stage only, with a landing page built on Wix.
- Used Figma and Balsamiq for wireframes and prototypes, focused on the first three SDLC phases: planning, analysis, and design.
